## APA Honors Platinum-Level 100% Club Members

Congratulations to the psychiatry residency programs whose photographs appear on this page—they are Platinum-Level members of APA's 100% Club. The 100% Club was established to encourage residents throughout the United States and Canada to join

APA and to do so with other trainees in their programs.

The Platinum Level is the highest level of membership in the 100% Club—these are programs whose residents have all belonged to APA for at least the past five consecutive years. The other levels are

University of South Alabama (five consecutive years at the Gold Level)

Wake Forest Baptist Health (five consecutive years at the Gold Level)

West Virginia University, Charleston Area Medical Center (five consecutive years at the Gold Level)

Hofstra North Shore-LIJ School of Medicine at the Zucker Hillside Hospital (six consecutive years at the Gold Level)
